Where to watch 50 shades of grey

LONDON, ENGLAND - FEBRUARY 09: Dakota Johnson and Jamie Dornan attend the "Fifty Shades Darker" UK Premiere on February 9, 2017 in London, United Kingdom. (Photo by Anthony Harvey/Getty Images) Erotic romantic thrillers are all the rage these days, with movies like 365 days generating a robust amount of popularity when it arrived on Netflix last year. This has inevitably led to subscribers seeking out similar titles to enjoy, including inquiries into the Netflix availability of Fifty Shades of Grey.Fifty Shades of Grey is based on the best-selling book of the same name written by E.L. James. The feature was directed by Sam Taylor-Johnson, who is known for helming Nowhere Boy, where she met her husband, MCU actor Aaron Taylor-Johnson. 50 Shades of Grey was written by Saving Mr. Banks screenwriter Kelly Marcel. The erotic drama was released on February 13, 2015, after premiering at the Berlin Film Festival on February 11, 2015, grossing a total of \$569.7 million against a \$40 million budget.The movie stars Suspiria's Dakota Johnson as Anastasia Steele, a college graduate who ends up in an enticing relationship with a business magnate who also happens to be a sadomasochist named Christian Grey, played by Synchronic's Jamie Dornan. Other cast members include Jennifer Ehle, Marcia Gay Harden, Max Martini, Eloise Mumford, Victor Rasuk, Luke Grimes, and Rita Ora.Songs from the film's soundtrack gained tons of popularity, such as Ellie Goulding's single "Love Me Like You Do," which was nominated for a Golden Globe, and The Weeknd's single "Earned It," which was nominated for an Oscar. Whether it's the stirring story or stellar performances, it's no wonder why subscribers wonder if Fifty Shades of Grey is available to stream on Netflix.Is Fifty Shades of Grey available on Netflix?Many great movies are available on Netflix, and unfortunately, Fifty Shades of Grey is not one of them. While this news is definitely less than ideal, the streaming powerhouse has many exceptional options to choose from that are very similar to the adaptation of the E.L. James novel.Films on Netflix that Fifty Shades fans will enjoy include 365 days, Desire, Newness, and White Girl, just to name a few. Sultry TV shows available on the streaming service include Dark Desires, You, and Perfume, among several others.Where to stream Fifty Shades of GreyFifty Shades of Grey, along with its sequels, are not on any subscription streaming service right now. The films are only available on VOD platforms like Apple TV, YouTube, Amazon, and Google Play. This method work for PC/laptop, tablet, TV and mobile devices too. Title: Fifty Shades of Grey (2015)Type: Movie SeriesCast: Jamie Dornan, Eloise Mumford, Jennifer EhleSynopsis: A wealthy young guy and a naive college student engage in an intense relationship. Is Fifty Shades of Grey available on Netflix? Yes, Fifty Shades of Grey (2015) is available on Netflix but it's hidden, that's why you can not find it. But if you will follow the steps mentioned in the guide you'll be able to watch Fifty Shades of Grey and a lot more other movies like Fifty Shades Freed, Fifty Shades Darker, The Notebook that is not available in your country for now. Short in time? Here is the quick guide for you: Download and install NordVPN.Connect to UK or France based server.Open Netflix and search for Fifty Shades of Grey.Select any part to play and enjoy your movie. Watch Fifty Shades of Grey with NordVPN Now! Why I can not Watch Fifty Shades of Grey on Netflix now? Actually, what happens, Netflix uses geo-blocking software to prevent viewers from watching content from other countries and that's the reason why it is not available in your country. And whenever you search for your desired show it doesn't show the specific movie/series. At the moment Fifty Shades of Grey is available in countries like UK and France. And if we can somehow change location to UK then we can access Fifty Shades of Grey and other titles on Netflix now. And exactly this, I am going to explain in the next lines. Steps to watch Fifty Shades of Grey on Netflix in any country When it comes to watching Fifty Shades of Grey on your Netflix account it's really surprisingly easy by using a high-quality VPN (Virtual Private Network). A good VPN can help us by changing our actual location to another location anywhere in the world. And now when we will access Netflix, it will see our changed (Fake) location and show content from that location (country). Using this same method we can unblock Fifty Shades of Grey and a lot more other TV shows. Let's see how to watch Fifty Shades of Grey specifically: At the moment the country that has access to Fifty Shades of Grey is UK and France.To connect to any of the countries mentioned above, you'll have to download a VPN that will mask your current location.The VPN I personally do use and recommend for streaming Netflix is NordVPN.To download and install NordVPN, check out our guides for iOS, Android, Windows and Mac.Once NordVPN installed connect to the UK based server (or any other listed above)Reopen Netflix App or Refresh Netflix page and search for "Fifty Shades of Grey".Now you can find Fifty Shades of Grey at the top.Click on expand and play, now enjoy the movie.Also, now you can unblock a lot more movies like Fifty Shades Freed, Fifty Shades Darker, The Notebook from anywhere in the world. If you also want to try NordVPN then click on this link to get up to a 65% discount right now. Unblock Fifty Shades of Grey on Netflix Now! Didn't get the video? Here is video tutorial for you: Realited Movies You May Like: Are you wondering why I am using NordVPN or why do I rely on it? Here are the reasons which make me use it personally. Why do I personally use NordVPN? I've tried many paid and free VPNs over the years. But unfortunately, Netflix detects and block most of the free VPNs and shows error message like this: If you want the overall best and fast VPN then I'll suggest you to go with NordVPN. The best thing is you can try it 30 days for free by using the money-back guarantee they provide. Use the VPN for 3-4 weeks and then ask for the refund in chat and you'll your refund instantly. Here are some more reasons why I personally use NordVPN: A large number of servers located in different countries: When we look at the number of servers through which we can connect using NordVPN is really vast. It has and 5500+ servers in 62 countries which are responsible for providing you a better speed and a stable connection. In other words, I am able to watch the Netflix catalogue of 62 countries in Ultra HD quality. Here is our NordVPN speed test: Location of headquarter: NordVPN's headquarter is located in Panama, a country which has no mandatory data retention laws which mean any government can't force NordVPN to keep a record of their users' data which is too good for privacy purpose. Technology: NordVPN uses OpenVPN and NordLynx Protocols which gives us fast and stable connection encrypted via 256-bit encryption, also know as military-grade encryption. Just by the name, you can imagine how difficult it is to decrypt your data. And using this encryption it is able to unblock Netflix. Dedicated P2P servers: If you are a fan of downloading torrents then you know better how important it is. Most of the VPNs reduces your connection speed when you start to download something from P2P sites. Actually, most of them don't do it intentionally but when you download torrents, mostly big files, it increases the load of their servers which cause in slow speed. To solve this issue, NordVPN provides you with the functionality of connecting via their P2P specialised servers. Works even in China: Those who travel often know the pain when they have to travel in countries such as Iran, Russia and the most painful China, where there is nothing such as Internet Freedom. And using a VPN might put you behind bars or get a penalty of a huge sum of money. For this reason, NordVPN has introduced obfuscated servers that let you use the Internet as you do in any normal country without any risk. Support: NordVPN provides us 24*7 supports and whenever I face any problem with any of their servers and ask for their help, they connect as soon as possible which is better than most of the VPN services which I used in past. Pricing Plans for NordVPN If we talk about its pricing then it comes with 3 options which cost \$4.13/month in 2-Years Plan, \$4.92/month in 1-year plan, and \$11.95/month in the 1-Month plan, and if you check my discount links then can get even cheaper. NordVPN Pricing Plans Get a 65% Discount on NordVPN Now! Money-Back Guarantee: If you have purchased NordVPN and now you are not satisfied with their service then you can ask for money-back within 30 Days unconditionally. Mode of Payment: Whenever we talk about VPN, the first thing which comes in our mind is privacy. And whenever we talk privacy then it is same for even our card and other banking information. By keeping this matter in mind NordVPN also allows you to pay even via cryptocurrencies. Try NordVPN Free for 30 Days! FAQs You can watch Fifty Shades of Grey on Netflix, but only in UK and France and if you're outside France then you can't watch on Netflix because Netflix uses geo-blocks that's why it is not available if you're USA, India, Canada, or any other country. But no need to worry, by masking our location to the UK we can easily unblock UK Netflix. Well, can't rule out possibilities in the future. But for now, Netflix does not have streaming rights. So it is very unlikely this anime series can come this year. Yes, you can unblock movies and shows all around the world in Android, iOS, Windows, Smart TV, and all the devices where you can play Netflix. If you'll search on google for ways to watch Fifty Shades of Grey movies online then you'll find tens of spammy pages with a lot of ads useless content. Still, there are few sites like Fmovies, GoMovies where you can find this movie, but these sites mostly contain copyright content, and accessing these sites can get you into legal issues. So, I do not recommend using these sites without a VPN which can hide your online identity. Doubts or Problems?
